

BioPrecis Consulting

Dr. Dimiter Prodanov, MD PhD

founder and CEO

End-to-end lab life-cycle support—
from risk and permits to
execution, quality control, and
training

We offer full-spectrum laboratory life-cycle support for
research ideas, spanning risk assessment, regulatory
permissions, operational delivery, quality control, and skills
development.

BioPrecis

Consulting

Unique know-how

- **Founded by Prof. Dr. Dimiter Prodanov MD, PhD.**
 - More than 15 years of experience in
 - biosafety and biobanking
 - modelling
 - training design and delivery
 - Design of large, complex laboratory facilities in Benelux and the Balkans
 - Design of small animal facilities in Benelux

Service portfolio

- Biosafety
- Biobanking
- Animal welfare

BIOHAZARD

Service portfolio

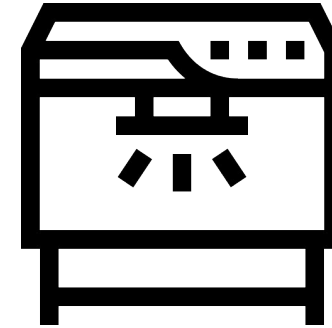

BIOHAZARD

- **Biosafety**
 - Risk-based biosafety assessments aligned to WHO LBM4 and local EU implementation, covering GMOs, pathogens, and human body materials.
 - Biosafety program design and build: gap assessment, implementation plan, competency-based training, and monitoring under LBM3/4 frameworks.
 - Laboratory design, commissioning, infrastructure, and equipment selection using risk-based criteria for containment and verification.
 - Biorisk management system design and training based on ISO 35001 and CWA 15793, including QMS structure, risk registers, and PDCA cycles.
 - Access and benefit-sharing due diligence and policy setup for Nagoya Protocol compliance under EU Regulation 511/2014.

Training offer

- Introduction to biosafety
- Biosafety level 2 training

Service portfolio

- **Biobanking**

- Biobank QMS design, gap assessment, and ISO 20387 accreditation readiness covering competence, impartiality, and consistent operation.
- BBMRI-ERIC quality self-assessment, internal audits, and preparation for BBMRI-ERIC Quality Label and audit programs.
- Human tissues and cells governance under Directive 2004/23/EC: consent, traceability, vigilance, and deviation management frameworks.

Training offer

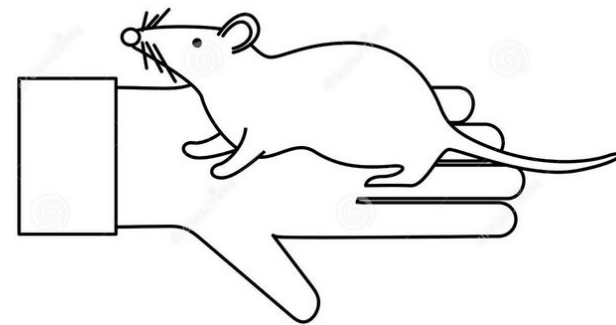

- Principles of biobanking of human samples
- Bioethics

Service portfolio

- **Animal welfare**

- Animal welfare compliance programs under Directive 2010/63/EU: 3Rs integration, authorization workflows, retrospective assessment, and inspection preparedness.
- FELASA-aligned education and training course design supporting personnel functions and facility competency development.

Training offer

- Bioethics and animal welfare
